## **Publications of the program from 2012-2017**

### **Research papers**

1. Assessing the therapeutic usefulness of Ricinuscommunis- A multicentric observational clinical verification study, Indian Journal of Research in Homeopathy 2014; 8(4): 200-208
2. Assessing the therapeutic usefulness of Mygalelasiodora: A multicentric observational clinical verification study, Indian Journal of Research in Homeopathy 2016; 9(4): 249-257
3. A multicenter, observational, homoeopathic clinical verification study of Cynodondactylon revealing symptom prevalence in a cohort of 340 patients, Indian Journal of Research in Homeopathy 2016; 10(4): 225-237
4. Symptom prevalence in a cohort of 147 patients improved with the homoeopathic medicine Ocimumcanum: A multicenter, open, observational, clinical verification study. Indian Journal of Research in Homeopathy 2016; 10(4): 225-237
5. Formic acid- A multicentric observational homoeopathic clinical verification trial. Indian Journal of Research in Homeopathy 2016; 10(4): 249-257

### **Drug Monographs incorporating data of drugs from drug standardisation studies, drug proving studies and clinical verification studies**

1. Cassia fistula
2. Alfa alfa
3. Hydrocotyleasiatica
4. Thea chinensios
5. Cynodondactylon

### **Books**

1. Study of homoeopathic Medicines through Clinical verification- A New Perspective, Volume III incorporating verified symptoms of 20 drugs.
